Please start out your listing with "ALBERTVILLE CITY-WIDE"

Then do your listing with as much or as little detail as you want, with children's clothes I suggest you list sex and sizes range, toys age range. Always include "miscellaneous". If you have any tools just use the word "tools" this draws a crowd, if you have any collectibles be sure to mention them. It is probably better not to get too detailed beyond categories like, sporting goods, auto parts, etc.

DO list your days that you will be open.
